MONTEVIDEO.

The heat in Montevideo is as great as in Buenos Aires, and the bathing at Pocitos is, if anything, more general than last year. The joy bells of the town are ringing and everyone seems in good humour because the Platense Company has reduced its fares to Buenos Aires to six National Dollars, and the hotels are so full that we saw an Englishman who spent 3 Nat. Dollars driving from hotel to hotel looking for rooms, and who finally had to put his luggage into a friend's room at the Oriental, in the hope that before night some room would be vacant. There is a stir and go at present in the Mount which reminds one of Montevideo 15 years ago. Everyone is busy, everyone making or spending money, and as for the tramways, every line in the town wants more coaches, more 'mayorales' and more tickets to meet the increased traffic of passengers. The War Minister, Sr Tajes, has not yet resigned, but it is surmised he will retire; his presidential party may be said to be completely annihilated by the energetic measures of the President, who thoroughly knows his people and knows well how to manage them. All probabilities point to Dr Terra being the next president, and as he is a sound, sensible statesman, his election to the Presidential chair is considered by all as the best guarantee of another cycle of peace. All the great men in Montevideo back him up, and besides this he is President Santos's candidate; he is by far the most go-a-head man down here, and his advent to power will mean a new departure for this country in railway affairs, as he is pretty much of the same school as the head men in the Argentine Republic, and believes that a railway is the cheapest of all roads that can be made in this country. Therefore Buenos Aireans may accept the fact that Dr Terra will be the next President of the Banda Oriental, and the Tajes clique may be marked as completely played out.

It would be next to impossible for me to give the names of all the Buenos Aireans, with their families, down here: In the dining room of the Oriental every table is occupied. Bustamante, with his children, was the first man I met on my way up from the steamer to the Oriental; and beauteous Aurora had hardly tipped the top of the Cerro with her rosy fingers, when I stumbled upon Mr Carabassa, the great banker, who, enveloped in children and towels, was making off for the Pocitos. The old Oriental Hotel is so completely itself again that it seems like a dream that the place was sold off at auction last year at a miserable sacrifice, to pay the creditors, and our old friend Ramon has gathered from his renewed prosperity increased blandness of smile and Spanish urbanity of manner. The Porteño ladies have completely taken Montevideo by storm with the loudness of their dresses and the extraordinary yellowness of their boots. The luxury of their appointments adds to the charm of their polished manners, and they are now organizing evening parties which are the talk of all the town. The Orientales are all the more remarkable for the great simplicity of their dresses. You see the daughters of the first people in Montevideo dressed in neat "zaraza" dresses that would cost in Buenos Aires, say 20$ a dress; but then there is no Ciudad de Londres or Progreso in Montevideo, and the loud colors so much in vogue in Buenos Aires are not admired by the ladies here. All the Buenos Aireans bathe twice and some thrice a day. Such a bathing furore as at present we never before witnessed. There are no houses, not even rooms, to let as in former years in the ocean suburbs, and the water is much saltier this year than last. I saw this morning the spot where the tidal or earthquake wave washed in the other day, and much greater caution is now observed, particularly at the ladies' department, where new ropes have been put up. Over fifty ladies were bathing, all holding to the rope, and I noted none of that feminine sky-larking going on which in former years was the source of such prodigious fun for the girls. At the men's department the boatman is on guard so close up to the spring-board that it is hard to take a header. The ocean seems to have gained on the wave-beaten beach, for there was certainly more water at the Pocitos this morning than ever I noticed before, and the old spar or pole from which so many of us got a souse is gone, we suppose washed away. "En fin" there is a certain change about the Pocitos since last year, which in my innocence I ascribe to the frights, and people seem more cautious.

There is very little political news stirring; all the people in the Government House are busy to-day starting the new "Ministerio del Culto.". Half the Oriental troubles of years past have sprung from the want of a Minister of Education. A man to look up the schools, the 3 r's, and to teach the young idea how to shoot. Two editors have been promoted from their printing offices to chairs in the new department. The education of the Republic is to be remodelled and reformed and put on a new basis; schoolmasters are at a great premium, and I am told for a fact, that in the whole city of Montevideo there is not to be found an Oriental who can teach Greek. No wonder Oriental affairs have long been in such a muddle. Homer is unknown, Xenophon unread, and Demosthenes has never reached the Montevidean mind, save when reduced to Spanish. The bathing bell is ringing, everyone is off before dinner for a bath at the Pocitos, and Madame ——— gives a grand bathing ball to-night.

THE LATE MRS. TORRES DE CLARK.

We feel much pleasure in publishing the following letters in reference to the generous charitable bequest of the above distinguished and lamented lady to the poor of the town of Belgrano:—

To Madame Corina Agrelo de Arenales, President of the Beneficent Society of Belgrano—"Las Hermanas de Dolores."

Dear Madam,

Mr. John E. Clark has entrusted me with the flattering and pleasing duty of handing you the sum of 1,000 National dollars, for the sick poor of this town, in compliance with the wishes of his mother, Doña Tadea Torres de Clark, who died on the 19th inst.

Mr. Clark is fully convinced that the Society over which you preside is the fittest medium for conveying this small bequest to those for whom it is intended—the Poor of Belgrano, as he recognises and holds in high honour the experienced delicacy with which the worthy ladies of the Society have always selected really deserving objects for their opportune succour.

In thus acting as intermediary of filial duty in carrying out the last wishes of so noble a woman, I have the honour, Madame, to salute you and kiss your hand.

Emilo B. Godoy.

Belgrano, Jan. 23rd.

Dear Sir,

I have received your note wherewith you send me, in the name of Mr. John E. Clark, the sum of 1,000 National dollars for the sick poor of this town, in fulfilment of the last wishes of his mother, the late Doña Tadea de Clark, who died on the 19th inst.

The Beneficent Society, over which I have the honour to preside, is deeply grateful for this act of charity on the part of the late honoured Mrs. Clark, and which her worthy son, even in the moment of his affliction, has so quickly given effect to. Most sincerely do we pray and believe that God will reward this good act.

We beg of you to give Mr. Clark our best thanks for his kind expressions in reference to our Society, and to assure him that his late mother's wishes shall be strictly carried out, while we sincerely wish him the resignation necessary to bear the great loss he has sustained.

I salute you with high consideration and regard.

ROSARIO.

(*From our own Correspondent.*)

January 25th.

When the good people of Concepcion del Uruguay voted for General Racedo as Governor of the Province of Entre Rios, they did not count on the mutability of human affairs or the ingratitude of politicians. The new Governor removed the capital from Concepcion, on the beautiful, transparent, agate-paved Uruguay, to Parana, on the turbid, but more majestic river that has the honour of bathing the walls of Rosario. The Concepcionistes, of course, were furious, and at one time a revolution was feared, but all has now quieted down, as the people, in their sober mood, begin to see the wisdom of the change.

There is certainly not such a wide difference between Concepcion and Parana as there is between Rosario and Santa Fe, the present capital of this province; but it is not too much to say that Concepcion, like Santa Fe, represents the stagnancy of old colonial times, while Parana and Rosario represent the new era of progress. No wonder that General Racedo, who although by no means an advanced liberal, is not a gaucho, was disgusted with the dead-alive capital on the shores of the Uruguay, whose waters, scared by the tyranny of the cacique of San Jose, have long since deserted the port, which is now only accessible to a small class of vessels. It is remarkable how the very atmosphere of such towns as Santa Fe, San Luis, Rioja, Corrientes and Concepcion tends to deaden the intelligence and bring out all the weak or strong or animal characteristics of human nature. We invariably see that in such places the authorities are deplorably ignorant, obtuse, malignant and arbitary, and at the same time proud and haughty. The reason is plain enough. Where society is stagnant and thought and intelligence not susceptible to outside impressions there is no such thing as public opinion, and authority, like a brutal bully in a school, is able by a nod or gesture to cow and terrorize the multitude. Parana is the only place as yet in Entre Rios that has emancipated itself from the old regime of Spanish alcaldeism, in which the authorities are everything and the people nothing. It is a good sign in favour of the new Governor of Entre Rios, that he has placed his seat of government in the only town of his province where public opinion, to a certain extent, exists, and which will sustain him if he really has the intention of inaugurating a civilized administration.

Had the Capital of the Province of Santa Fe been Rosario instead of "Sleepy Hollow," we should not have had the succession of disgraceful Governments that have been the scourge of the province for so many years. Public opinion would have restrained the authorities; but in the present capital, the man with even the best intentions must become perverted by the atmosphere of sycophancy and fanaticism that surrounds him. I have often remarked that the Governors and Ministers of our Administration possess a mortal antipathy to Rosario. When necessity obliges them to visit this town, their stay is as short as possible, and they scarcely show their faces in the streets. One would think that our Governors would be proud to parade themselves in a town of their province that may well be called the second of the Republic; but no, they feel and know that public opinion is here a notable fact, and they hate and fear it. This fear of Rosario is ludicrously illustrated by the recent division of the province into new Departments. The department of Rosario is curtailed into an insignificant little territory, completely surrounded by the new one of San Lorenzo, the head of which is only four or five leagues from this city, and is held by Col. Cordoba with his two or three thousand gauchos. People to the South and West of Rosario, who are unfortunate enough to have to do with "La Justicia," have to pass through Rosario to go to the Gefatura of San Lorenzo, but what of that, if this dreaded although peaceful town is walled in and reduced to political insignificance?

The young gentlemen of the Press belonging to the Capital have not always the perspicuity with which the provincials credit them. One of them, a reporter of one of your colleagues, *El Diario*, came up to Rosario for a couple of days. Immediately there was a flutter amongst the young girls and young gentlemen. What was the *Diario* Reporter going to say of them in his paper. Were Burns known to the Rosarinos they might have exclaimed:—

"If there's a hole in a your coats
Beware you tent it;
There's a chiel amang ye taking notes
And faith he'll prent it."

The hoped for, although dreaded correspondence duly appeared in the *Diario*, but to the wonder and indignacion of the whole town, it was found to be a tissue of the most scandalous insinuations and notices in which were indiscriminately mixed up the names of the most respectable people of this town, of both sexes, with others quite unknown and some rather too well known. The *Diario* must be very loosely edited to have allowed such a palpable piece of gross fiction to be printed in its columns. As may be imagined, the press warmly took up the cudgels against the offender of public decorum. The Director of the *Diario* telegraphed up that there had been a great mistake committed. (I should think there had). He sent the culprit Reporter again to Rosario, so that if necessary, to satisfy the "vindicta publica," he might be tarred and feathered. On his arrival here he published his vindication, by which it appears he had been silly enough to accept as truthful chronicles of our society a scurrilous hodgepodge got up by two or three mischievous unprincipled youngsters in order to mystify the Porteño Reporter; and whom, it is a charity to suppose, could not imagine that the said reporter would have so readily swallowed the bait, hook, line, pole and all. In this little episodial social scandal the Editor of the *Diario* showed great carelessness or complete want of judgment, and the reporter has demonstrated to a mathematical certainty that he will never be hanged for setting the Parana on fire. At one time it was feared that chickory and pistols had been ordered for half a dozen, but every cloud has cleared, and the atmosphere of friendship, harmony and good will is again free from ugly passions.

The Umberto's Mails.

Gibraltar, Jan. 3rd.

The following telegram was received this afternoon, dated London, 3, 1.25 p.m.:—"Uproarious meetings at Dromore, twenty thousand Orangemen attacked Parnellites; two thousand Orangemen attacked Parnelites troops prevented serious collision. Lord Spencer arrived at London closely guarded by Police. It is reported that the Madhi is advancing against Khartoum. Rumours of a Ministerial crisis are current at Cairo, if the British Government insists on abandonment of the Soudan; resignation of the Egyptian Ministry certain."

A despatch has just been received stating that the Soudan rebels attacked Gesireh, near Berber, on the 29th and were repulsed with heavy loss. Although this is considered a victory for the Egyptian army, the Governor of Gesireh was killed.

The chief of the Ministry of Public Security was assassinated last night, at St. Petersburg, and a functionary who accompanied him was mortally wounded. The crime is attributed to Nihilists who continue to address anonymous threats to the police. The Czar is much better.

A serious occurrence is reported from Harbour Grace, Newfoundland, where a body of Orangemen, who were parading the streets, were fired at by some Catholics who had entrenched themselves behind a snowbank. Three of the Orangemen were killed and several were severely wounded.

We learn by special telegram from Harbour-Grace, says the *Daily News*, that in the riots which have taken place there four men were killed and eight seriously wounded. About twenty slightly wounded. The event has caused intense excitement throughout the district. Places of business were closed, and many private dwellings barricaded. It was thought, however, that there would be no further troubles, the police force being now sufficiently strong to maintain order.

The *Times* says that an Arab, who left El Obeid ten days ago, arrived at Khartoum on the 27th. He reports that the Madhi had left with an army for Moselimia, on the Blue Nile, for the purpose of attacking Sennaar. He is reported to have declared his intention of then attacking Khartoum, and afterwards of consolidating his forces there for a march north. The fortifications there are being pushed on with vigour, but there are insufficient soldiers to man them, though the Fashoda garrison has arrived. There will be a religious festival in a few days, and some disturbance is anticipated.

The *Paris* of the evening of the 26th states that a definitive agreement has been arrived at between the Suez Canal Company and the British shipowners, on terms affording legitimate satisfaction to the Company's interests.

A telegram from Antwerp of the 27th ult. says that the banking firm of Messrs. Ghislain, Cabn, Painvin, and Drion has suspended payment. The liabilities are stated to be ten million francs, and the assets four millions francs.

An Imperial decree, dated St. Petersburg, December 25, orders the reorganization of the local troops of the Caucasus and the formation of six battalions of reserve.

A Reuter's despatch from Cairo of the 26th ult. in the *Daily News* says:—One thousand three hundred Egyptian troops have arrived at Khartoum from Fashoda without meeting with any resistance. They report having found the road along which they marched perfectly quiet. This force raises the garrison of Khartoum to 4,000 men. The Khedive has received a telegram from the Governor of Dongola stating that, according to information derived from Kabbabish sources, the Egyptian loss is estimated at 4,000 men, and that of the Madhi at 40,000. The Kabbabish also report that the remainder of the Egyptian army is at Birket, amply provisioned and with a good supply of water.

The papers published in Paris on the evening of the 27th contains a semi-official Note denying the statements of foreign newspapers about the losses before Sontay being greater than had been stated by Admiral Courbet. The return of the Marques Tseng to England has provoked various comments.

The ten Glasgow dynamiters were removed on the 27th ult. from Edinburgh Prison to Chatham. They were conveyed by the 'Flying Scotchman,' under a special guard of police in plain clothes, and the governor of Edinburgh prison accompanied them.

A box of explosives has been discovered on the Great Western Railway, near Powderham Castle, the seat of the Earl of Devon. It was found by a gauger named Avery, who took it to the Exminster Station, where it was discovered to be filled with an explosive compound, and to have a fuse attached. The fuse was fitted with a cap, and it is probable that serious mischief was intended, as the passing of a train over it must have caused an explosion.

PARIS LETTER.

(*From our own Correspondent*)

December 14th.

The Council-General of the Seine has voted more than one million of francs for the purpose of a large estate and buildings in the vicinity of Bone, Algeria, where the foundlings of Paris and its environs will be sent to be taught agriculture and horticulture. On arriving at man's estate, they will receive free gifts of land, stocked, &c., on easy conditions, in the colony; thus they can found for themselves a home and country. This is a step in the right direction. The Anarchist, Joffrin, did not find the project to his taste: the Government transported the infants as if they were convicts, and bred them up to that last of professions—agriculture. Joffrin is surpassed in wildness by other Anarchists, though he has just accused the Government of acting as the police agent of Russia, by expelling a Pole, who sought an asylum in France, and whose life was merely devoted to an endeavovr to take that of the Czar. According to Joffrin, France ought to be the head-quarters for Nihilists and Invincibles, who are "the true sons of liberty."

Henri Martin, the historian, has been buried at the public expense, and his funeral went very close on the lines of that of Gambetta. In a literary point of view France has been less munificent with honours for more brilliant sons. Martin, like so many other distinguished men, was placed in a notary's office; he soon quitted that position for a kind of Bohemian life, trying his hand at novels, ballads and poetry, newspaper articles, dramas, and, finally, history. He aimed to succeed Thierry. He was a Frenchman and historian, from the Celtic point of view, not the Latin. In addition to being a *littérateur*, he was an active, prosletysing Republican, a demonstrative patriot, and so had a claim for a niche in the Pantheon. He was neither an old nor a new Catholic; he asserted he was a faithful son of the Galician church, with Protestants for patrons.

Madame Bernhardt has been again in trouble. Madame Colombier, who calls herself now an "old picture," was class-mate of the great Sarah: both quitted the Conservatoire, or Theafrical Academy *exequeo* in point of hohours. Marie Colombier formed one of Bernhardt's troupe that a few years ago went in search of "the Almighty dollar" in the States. She complains she was never paid her contract salary. The ladies became bitter enemies. Ten days ago a work appeared, *Serah Barnum*. by Mdlle. Colombier, It is, under the most slender of fig-leaves, an exposure of the inner life, eccentricities and weaknesses of Madame Bernhardt, a specimen of society journalism of the future. It delineates Sarah's unamiable disposition, her bad tongue, her susceptibilities and jealousies; her *pechés mignons;* her visiting Cora Pearl, who, however, once appeared on the stage as *Cupidon*, till the medical students hissed Messalina off; her addiction for a stimulant that Burke viewed as the nectar for heroes; her having a son independent of a husband, and resorting to all the beautiful devices of art to cheat the outrages of time. Now, such insinuations would try the temper of a saint. Sarah took down a horsewhip, a souvenir from Marshal Canrobert, and, accompanied by M. Richepin, the author of *Nana Sahib*, forced her way into Mdlle. Colombier's residence, following that authoress from room to room, with horsewhip and her Djamma dagger. She finished by smashing the furniture, mirrors, glass, &c. Richepin attempted to flesh a maiden cutlass on a gentleman who happened to be quietly paying a visit—"Kill all, God will know his own," was the principal on which he acted, Madlle. Colombier avows she is not a bit the worse. She has come up smiling, and has invested in a Colt's revolver, so friends will please accept that notice. She does noe intend to take an action for assault and battery against Sarah: She is already more than idemnified by the sale of her novel—11,000 copies a-day, and Madame Bernhardt has obtained what she wanted—a puff. To illustrate the purity of her intentions and love, Mdlle. Colombier actually went to applaud Sarah on the first night of her appearance in *Nana Sahib*. Is that not heaping coals of fire on the enemy's head?

A few days ago a young paper merchant was to be married. The bride and the company, fifty persons, were assembled; a friend drove to inquire the cause of his being late, On entering, the bridegroom was found dead, throat cut from ear to ear, locked in the arms of his discarded mistress, who, after murdering her ex-adorer, shot herself.

A commercial traveller, missing for six months, with 100,000 fr. has been taken out of the Seine, his hands tied behind his back. The body was identified, despite its long immersion in the river.

An odd discovery has been made. Robespierre, who was a dandy, was buried in the same "pit," after being guillotined, as Louis XVI.: he wore. a fashion peculiar to him, silver shoes and golden *culotte*-buckles—these were found when the bones in In the pit were transferred, as those of Louis and his wife, to the Cathedral of Saint Denis.

CONSUL BAKER'S REPORT.

AGRICULTURE IN THE ARGENTINE REPUBLIC.

PROSPECTS OF THE PRESENT HARVEST.

So much for the crops of former years. In regard to the harvest of the present year (1883), now in process of being secured, all reports coincide in saying that it will be a full average yield, not only in wheat, but in all other cereals, and from the breadth of land which has been planted it may be assumed that there will be an unprecedented surplus for export.

WHEAT.

From parties who have carefully studied the subject I have obtained a statement, which I give almost in their own words, of the amount of land put down in wheat:

	Acres.
In the Province of Buenos Ayres, 120,000 squares.....	480,000
In the Province of Santa Fe, 140,000 squares	560,000
Total in these Provinces..	1,040,000

Now, assuming that the yield in the Province of Buenos Ayres will be 18 bushels to the acre and in the Province of Santa Fe 16 bushels to the acre, we will have the following product:—

	Bushels.
For the Province of Buenos Ayres.....	8,640,000
For the Province of Santa Fe	8,960,000
And, say, for the other provinces.....	2,000,000
Total yield of wheat, 1883	19,500,000

Assuming that the consumption in the Argentine Republis is four bushels to each inhabitant, and that the population is 2,500,000, there will be at least 10,000,000 of bushels in excess of the home demand for export, either in grain or flour.

INDIAN CORN.

In regard to the crop of Indian corn, I have seen no estimate of the breadth of land which is now in cultivation; but it is believed to be nearly a third more than it was last year, and the yield will be a good one, so that it may be safely predicted that there will be a surplus for export of at least 5,000,000 bushels.

LINSEED.

For the last two or three years quite an interest has been manifested in the production of linseed for export. The yield of linseed is from 20 to 40 for one, and the country seems well adapted for its production. As we have seen, the amount of the export in 1881 was about 7,000 tons, while in 1882 it was over 21,500 tons. This does not include the fibre, which heretofore has been neglected; but the art of preparing it for use has been introduced into the country, and hereafter it is probable that hemp fibre will become also a valuable article of export. I may add that several oil mills have also recently been erected in the country for the coming year, and great hopes are entertained that the production of linseed oils will hereafter be added to the national industries. It is anticipated that the crop this year will largely exceed that of 1882.

OTHER CROPS.

The same may be said of the harvest of barley, oats, rye, potatoes, beans—some of these crops until now not having, to any great extent, been cultivated in the country. Barley especially, owing to the greatly increased demand for it in the manufacture of beer, has this year received more attention than ever before.

PEANUT PRODUCTION.

I would also refer to the growing of peanuts, which, especially in the Province of Santa Fe, is a most prolific crop. There is a large demand, not only abroad but here in this country, for this crop, which is used in the manufacture of *olive oils*, as also, mixed with flour (half and half), in the production of a most excellent variety of bread. The amount raised during the last year in Santa Fe is stated to have been 300,000 arrobas, or nearly 150,000 bushels. This year it is estimated that the crop willl be double that quantity. The amount exported to France last year was 114,792 kilograms.

THE GENERAL AGRICULTURAL OUTLOOK.

I have thus rapidly sketched the history of agriculture in the Argentine Republic from the beginning, and have, from such meagre statistics as I have been able to find, attempted to show its progress and its present condition. While, as I have said, the showing is not remarkable, either in the present breadth of land in cultivation or in the amount of the crops, it at least indicates a steady forward movement, while the impetus that terra culture is now receiving from European immigrants promises much more for the future. The great point thus far gained, however, is the positive fact that the pampas of the republic are, in every essential, all that could be desired for the production of grain crops.

Henceforth, in my opinion, the agricultural development of the country is perfectly assured. The amount at present produced in excess of the home demand may seem small and trivial; but, when we remember that only forty years ago even the United States had in part to import its breadstuffs, and consider the marvellous advance we have made in the production of grain crops since that time, we may to some extent appreciate the prophecy that it will not be many years before the Argentine Republic, which already has a yearly surplus for exportation, will be contesting with us for a division of the food supply for Europe. In beginning this report I said that this event would probably not happen in the very near future. It may, however, be nearer at hand than some of us may imagine. For many years to come the leading industry of the Argentine Republic will probably continue to be the growing of cattle and sheep; but it is evident to my mind that the Argentine Republic is to have a grand future, as one of the great grain-producing countries of the world.

EDITOR'S TABLE.

Our Argentine colleagues are still "wiring into" the Tramway Fares with all their might, and the most absurd suggestions are made as a means of keeping the ordinary fare at 8 cents. A colleague that assumes to be a "leading" organ proposes that the public at large should sign a solemn compact not to put their feet in a tram car till the fares are reduced to 8 cents! Ye gods! Has such thorough rubbish ever appeared in a newspaper before? This girlish plan for settling the difficulty is what is called "cutting off your nose to spite your face." What is wanted is not 8 cent. fares, but 5 cent. fares, or less, say 4 cents. Free the companies from the obligation of paving the streets, and they would most willingly reduce their fares to four cents to-morrow. Paving the streets is no business of tramway companies in any city but this, where we do so many things upside down, and never learn anything from our dear experience.

Look out, all ye who smoke the fragrant weed, for Ebbeke and Co.'s Havanna cigar auction to-morrow. Amongst the brands is that which the Madhi smokes, and that patronized by "Sarah Barnum."

No rain need be expected till Tuesday, at 3 a.m., when a new moon will be due.

Southward Ho! The latest step towards this point of the compass is the contract signed by the Government with Mr. Venturesome Oreiro for a steamer of 1,000 tons to ply between this port and States Island, calling at three intermediate ports, to be selected by Government. The steamer will make eight round trips in the year—6 to States Island and 2 to Santa Cruz. The subsidy is 36,000 Nats., per annum.

The Locusts have appeared at Tandil, but have not as yet selected the spot from which they intend to start eating.

The blessed Water Works again! Yesterday there was another slip. No water in the "altos" houses for the morning tub.

We beg to call the attention of the public to an advertizement in another column, by his parents, asking for information as to the whereabouts of Mr. Arthur Matthew, who left the British ship Coldstream last July, when she was discharging in Rosario. Any particulars will be thankfully received at this office.

The "vecinos" of San Nicolas and the Western Railway Board have agreed to jointly throw away $200,000 on "fiestas" when the railway branch to that town is inaugurated. The hankering after "fiestas" in this country is deep-rooted. Better give the money to the poor of the town.

Nobody in Rosario slept a wink on last Wednesday night, owing to the countless swarms of mosquitos that settled on the town. Our subscribers up there were half eaten alive.

The "Sandwiches" 'comparsa' that is being prepared for Carnival will carry in the carriage an immense box full of sandwiches, flanked by two pipes of Bickhert's beer, and friends met in the Corso will be regaled with both. We advise the Sandwich islanders to be prepared for the roughs.

The French St. Cloud Fete opens to-day in Mr. Biekhert's beery Elysian Fields at the Retiro. The preparations are most splendid, and the affair will be the grandest of the kind as yet given by our French friends. We hope it wont rain.

Our readers will see with regret that our obituary column to-day records the death of Mr. James Lawrie, of Los Sajones, at the comparatively early age of 45. To the family we tender our sympathy in their deep affliction, and are sure that so does every one who had the pleasure of knowing Mr. Lawrie. The funeral takes place to-day at Almagro.

Number 11,330 won the 10,000 Nats. prize in yesterday's Lottery. We hope some subscriber has it.

Mr. Luis Fontana's report to the Minister of the Interior on the wheat harvest in the Resistencia Colony disposes of the erroneous belief that wheat could not be grown in the Chaco. Twenty fanegas per square, and this with very inferior seed. Such is the result of the first experiment.

Holloway, the great Pill man, has just died at the ripe age of 86. His family attribute his living so long to the fact that he never was known to touch any of his own pills, even with a tongs.

General Sarmiento left yesterday for Montevideo to catch the next steamer for Valparaiso.

General Osborn, United States Minister, Mr. W. Baker, U.S. Vice-Consul, and the Captain and officers of the U. S. warship Nipsic, called on President Roca yesterday to pay their respects to the Chief Magistrate, who received them in the most cordial manner.

We had the pleasure of meeting Mr. Adolfo Negrotto yesterday, and he told us that his College numbers this year exactly *three* times as many pupils as in January 1883. This is something like going ahead.

To-day the Navarronians are to have big doings. Their new Juez, Mr. Kenny, is a great favourite, and he will be ushered into office with music and meetings, and a splendid ball at which every fair Navarronian will be present. Sr. Echegaray, the outgoing Juez, is also a great favourite. He has received many tokens of the warm appreciation in which his talents are held.

Mr. Mansilla, Prefect-General of Ports, informed the Minister of Marine that there are some one hundred and fifty scoundrels inhabiting the islands of Tala and Lichiguanas, and spreading terror all around. They are mostly deserters and escaped criminals, and are daily becoming bolder in their attempts. Mr. Mansilla suggests that a properly equipped expedition should be despatched to root them out and assert the law. The matter is extremely serious and demands prompt remedy.

The *Plata* properly pulls up an offending but unnamed colleague for alleging that Dr. Rocha's frequent visits to La Plata caused a delay in the despatch of business. Our worthy colleague says that the Dr. settles all matters up to the moment of departure, and anything pressing that may turn up is taken to him at La Plata.

The three miscreants who recently put a heavy post on the railway line near Chascomus, to upset a train, have been let off with $200 m/c fine each! What a farce and parody of justice! Five years penal servitude would be never the mark.

A Cordoba colleague exposes the annoyance to which Dr. Gould, the learned Director of the Qbservatory, is exposed by travellers calling to see the Observatory, and expecting him to show them over the place, explain the use of the instruments to them, tell them all about the sun. moon and stars, etc. It is really monstrous to have the researches of such a man, and which are of such importance to the nation ard the world at large, broken in on by a gaping crowd that dont know a telescope from a blunderbuss. The Government should keep the public out of the Observatory, except on stated days, if the worthy Dr. Gould is too kind-hearted to do it himself.

The Rosario papers report a couple of hungry lions prowling about the islands and devouring a good deal of raw mutton and lamb.

A physician in a small town had frequently been pestered by little street arabs, who came to sell wax-lights. At last, when patience had ceased to be a virtue, he told the boy to go into the next room, where there was a fellow who smoked. The young rascal went in, and his eyes fell on an all-grinning skeleton. swaying and nodding in the breeze. The boy's hair stood on end, his tongue palsied, and he dropped his stock-in-trade instanter, and scampered off as fast as his legs would carry him. The physician, a kind-hearted man withal, and very tall and lank by-the-way, fearing that he had carried the joke too far, picked up the wax-lights, and ran to the pavement, crying out, "Come back, boy, there's nothing here to hurt you." "Oh, no," said the boy, gesticulating with his thumb and fingers from the end of his nose, "you don't come that o'er me; I know ye if you have got your clothes on."

A colleague says that the scarcity of "peones" in town is becoming a serious business. Bricklayers, hodmen, and labourers of all kinds are rushing off to La Plata, where the Government and private parties are paying enormous wages, 40$m/c per day, or more. Even the crews of vessels in the Boca are deserting, to go and work at La Plata.

A young Argentine named Baya killed himself last month in Nice, to the great horror of the fashionable dwellers there. He flung himself from a high window in his hotel, and was killed on the spot.

At a grand conference in Abbeville, at which several Deputies with the Mayor and Prefect of the town were present, Mr Lesseps spoke at some length on his three great enterprises, the Suez and Panama Canals and the African Internal sea. He repeated several times duing the course of the proceedings that as long as he and his son live the Suez Canal will be French. He also stated that the shares for the African sea undertaking would soon be out. More than 3,000 persons assisted, and he was enthusiastically cheered.

The Liebig saladeros are at present negotiating the purchase of the Benitez saladero in Gualeguaychu. Mr Croker, the manager, recently paid the latter a visit of inspection and expressed great satisfaction at the state in which he found everything. The purchase will soon be concluded and contract signed in this city.

The police authorities in Ranchos have just succeeded in capturing an 'almacenero' who shot a neighbour in his own shop last January. The quarrel arose over the refusal of the owner to trust the victim with a glass of gin, as he was already inebriated. His reply was to take up a bucket, launching it at the prisoner's head, but without doing him further damage than breaking some glass. One shot from his revolver left the matter as it now stands.

Messrs. M. G. Watts, A.M. Montamaro and J. H. Hunter, are establishing a 'fabrica' for preserving peaches in the Islands of the Paraná, and have constructed their 'fabrica' in the quinta of Sr. Don Domingo Calzetta, and within a few days will commence preserving. They have received and are now erecting the machinery. For this year they intend to supply only the markets of Buenos Aires, Montevideo and Brazil, and next year those of Europe, on a large scale. They will prepare also other fruits which will be superior if not equal to those received from Europe. Señor Calzetta has offered gratuitously the land as long as they remain established on his quinta. The peaches of this country are very abundant and superior to those of North America, thus they cannot fail to hold their own in competition, and they will keep the same flavour as if they were just plucked.

A cynical old bachelor, who firmly believes that all women have something to say on all subjects, recently asked a female friend:—"Well, Madam, what do you hold on this question of female suffrage?" To which the lady responded calmly:—"Sir, I hold my tongue."

One of the new 'comparsas' getting ready for Carnival will be called "Los Sandwiches."

The New York papers report that "divine Stagno," who was such a favourite here, was anything but good as Ottavio in Don Giovanni, which was recently performed in the new theatre there with a splendid caste, the efforts, of the singers, however, being spoiled by the break-down of the orchestra.

OFFICIAL SALARIES.

To the Editor of the *Standard*,

Dear Sir:

Will you kindly, through the intermedium of your valuable paper, allow me to address a few questions to your old correspondent Mr. Ch. H. W.

Mr. Ch. H. W. stated a few weeks ago that private business prevented him from writing more for the *Standard*.

Now, as he is well up to all that belongs to the Immigration Department, I think he might, for two minutes, put his private business aside and inform not only me, but many other people, what is the reason of the nice arrangement in the nomination of the new employees, according to the budget of 1884.

I read f. i. that the Secretary of the Comisario General, gets 155m/n a month, whilst the 'Jefe de la Oficina de Trabajo' (who is his subordinate) has 180 $m/n.

This is only *one* question for the moment.

In case Mr. Ch. H. W. shall have the kindness to inform me on that point, perhaps I may bother him with some more questions, f. i. the nominations in the Secretaria, Oficina del Visitados etc., etc.

Begging you and Mr. Ch. H. W. pardon for the liberty taken I remain Sir

Yours respectfully

M. P.

[Ed. Note]—We hope Mr Ch. H. W. will favour Mr. M. P. with an answer.

A NASTY BOUGH.

The "Family Doctor" in *Cassel's Magazine* for December write:—I would like elderly people who read this, and who may have little else to worry them in the shape of ill-health, to take comfort from fact the thatif they had not that "bothering bronchitis" they complain so much about, they might have something very much more painful and dangerous. Sometimes in old people the anount of exudation from the lungs which is coughed up or spat up is so great as to be alarming. But this it is not always safe to check. At this present moment I feel myself on dangerous ground, in this way—a dozen different people who suffer from the chronic bronchitis incident to age may be scanning these lines, and each case may have many symptoms peculiar to itself, and many different causes. Would it be safe or right for me to lay down any plan or treatment therefore? It would not. I can only give commensurate advice that may be dangerous to none, Whenever, therefore, your cough is worse than usual, especially if it be accompanied by much difficulty in breathing, seek for medical advice after you have tried the useful plan of inhaling steam for a time and taking rest in a warm room or snug bed. But remember that the discharge, or that which you sp

While the strictest School-discipline will be enforced, corporal punishment will be resorted to very rarely and only in the most extreme cases.

The School will be connected with the local Examination Scheme of the University of Edinburgh; in order to give advanced pupils an opportunity of gaining a certificate by means of which their proficiency in different studies may be vouched for by competent examiners.

Imperishable Fragrance

Murray & Lanman's

CELEBRATED

Florida Water.

The richest, most lasting, yet most delicate of all perfumes for use on the Handkerchief, at the Toilet and in the Bath, delightful and healthful in the sick room, relieves weakness, fatigue, prostration, nervousness and headache. Look out for counterfeits, always ask for the Florida Water prepared by the sole proprietors, Messrs. Lanman & Kemp, New York.

For Sale by Perfumers, Druggists and Fancy Goods Dealers.

IT IS A LITTLE TROUBLE TO examine the pamphlet wrapped around each bottle of the true MURRAY & LANMAN'S FLORIDA WATER, so as to find the words "LANMAN & KEMP, New York," which are water-marked or stamped in pale letters on every page, but it is better to take this small amount of bother rather than to be imposed upon by a worthless counterfeit. Every leaf of the pamphlet around the genuine has these words in it, which though pale and faint, can be easily seen when held up to the light, and no FLORIDA WATER is genuine that does not have this test-mark.

Cedulas A	100⅜
Cedulas E	87⅜
National Bank Shares....	129
Hard Dollars	88⅜

Some life was put into the Cedula speculation this morning, and largeadvances of money were made on the stock at 8 per cent. About three hundred thousand E were sold for the end of the month at 88⅜-⅝, prices which show a drop compared with rates during official hours yesterday. Two hundred thousand were sold for the end of February at 88 and 88½. The stock changed hands for cash as low as 87⅝; in fact, there was a drop along the whole line this morning, and the leading bears state that the present fall is only a faint shadow of the tumble which they foresee on liquidation day. The bulls, no doubt, are not very strong if they are weak; in fact, but Series E generally resists a fall, as outsiders step into the market and sweep up large amounts when any great oscilation takes place in the speculation; as a favourite stock for investment it is more easily bulled than beared, and the wonder is that savings' have not swept the Series off the market, and out of the hands of the speculators. Series F is in a fainting condition; 86,000 were sold for cash at 85, and a few thousand for Monday at the same price. Series A was sold for cash to-day as low as 100⅛; it is some time since this Series figured so low. The liquidation of the month promises to be interesting, not so much with regard to the volume of the speculation in Series E during the month as to the important differences which must be met: herein the liquidation of January will prove more important than the settlement days of of December, November or October.

Eighteen thousand Hard Dollar Bonds changed hands for cash this morning at 88⅜; the Hard Dollars are in more demand at present, and they are thrown more frequently on the market. The London quotation, according to telegrams of Friday is at 90 to 91 per cent.

The funebrious appearance of the National Bank Share market is a puzzle for the moment. There is an effete aspect about the speculation most melancholy to witness. Operators look on with folded arms, and there is much reluctance all around, whether to buy or to sell. The most insignificant operation marked on the board is watched with close intent, and there is strong curiosity to know the operators. The market has seldom displayed such an utterly exhausted state of affairs. The bears state that the situation could not be flatter, and appearances are in their favor; but the market, strange to say, is firm at 129½. There are buyers at this rate, but sellers do not turn up. National Bank Shares are at present passing through an anomalous stage, but it is freely acknowledged that the bulls are quite able to carry the stock and to corner the market. Fair amounts were passed over to February this morning at 1 to 1½ ⅜ per share—rather high figures.

With regard to the sale of 27,000 hectares of land, which we published in our last issue, we hear that this land was sold some time ago at the rate which we published—about 300,000 ⅝ per league. The actual owners will not let go at 150 ⅝ per hectare—say 375,000 ⅝—owing to the proximity of the property to the town of Mellizas, only five leagues distant. The rails of the Western Railway will reach this point before the end of June next.

Nothing whatever was reported in exchange this morning; the feeling in the market is dull: rates are quoted at 47½ to 47 9/16. Little business is expected before the beginning of next month. Exchange on Montevideo shows no change. Special gold—Sovereigns and Napoleons, continue in demand for up rivers at 2½ to 3 per cent premium. The money market continues unaltered outside; advances on stocks are tightening in view of the approaching end of the month.

The sales at the ring during official hours were:—

Cedulas—
For cash A 16,080 at 100⅜-½-⅝
For cash E 15,000 at 87⅝-¾
For Jan. 31st E 290,000 at 87⅞-¾-⅞
For Feb. 29th E 190,000 at 88⅛-⅜-½
For cash F 86,000 at 85
For Jan. 28th F 7,000 at 85
Sales, 604,000
National Bank Shares—
For Jan. 31st 50 at 129
Hard Dollars, 1863—
For cash 18,000 at 88⅜

The meeting of the Italian Bank shareholders on Friday was poorly attended. The Bank is so wonderfully prosperous, and the shareholders have such unlimited confidence in the abilities of Mr. Polinini, the talented Manager, that they rarely attend the meetings in any number, knowing that their affairs are in such excellent hands. When the report was read on Thursday, the shareholders present could not contain themselves, and gave a ringing cheer. Some of them, however, objected to so high a dividend, and wished to carry one per cent more to the Reserve Fund, but they were overruled, and 6 o/o was declared, for the half-year, making 11 o/o for the year. The net profit was $156,086 National dollars, deducting from which 40,792 m/n for eventualities, left $115,294 m/n to be distributed as follows:—

5 o/o to Reserve Fund	$7,804.32
7 o/o to Board of Directors	10,926.05
4 o/o to Founders.....	6,243.45
84 o/o to Shareholders, or $6 National dollars per share	90,000.00
	$114,973.32
Balance to next half year..	320.18
	$115,294.00

The assets of the Falcon estate have been finally distributed, and the Eventualities Fund is therefore increased by $19,207.61 m/n, and now amounts to a total of $60,000 m/n. The Report states that the business is growing daily, and that Mr. T. Devotto was named to fill Mr. Lavarello's place on the Board, winding up with a well deserved compliment to Mr. Polinini and all the employees of the Bank. No Bank in this country can show sounder progress or more able management than the Italian Bank.

The splendid French steamer Uruguay, of the Chargeuns Réunis, will leave on the 3rd proximo. She has already a full cargo engaged.

The Nord America, of the Veloce line of steamers is expected in Montevideo to-night; she left Genoa on the 11th inst. There has been little betting on her this time.

The Buenos Ayrean has engaged 4,600 bales of wool and will fill up with bales and wool in Montevideo.

Las tierras que se ofrecen en venta, se encuentran ubicadas en la Provincia de Santiago del Estero sobre el deslinde con la de Santa Fe.
Su situacion es inmejorable y dificilmente podra ofrecerse a la venta una estension de tierra que reuna las condiciones de las que van a rematarse. Estan situadas al norte de la Provincia de Santa Fe, y a ocho o diez leguas de los florecientes colonias de esta Provincia y a una poca distancia de los importantes establecimientos de los Srs. Ramayon y Escalada, Lezama y otros.
Dentro de muy breve tiempo las colonias invadiran estos campos que por su feracidad y situacion se prestan cual ningunos otros a la agricultura.
La calidad de estas tierras es excelente. Estan cubiertas de una capa de tierra vegetal de sesenta a ochenta centimetros y en algunas partes el espesor de estas capas pasa de un metro. Las aguas subterraneas se encuentran a cuatro, cinco y seis metros de profundidad, y en todos los jagueles que se han hecho hasta ahora en esta region, se ha encontrado agua dulce. Abundan ademas las aguas superficiales en pequeños arroyos y lagunas.
Estos campos son parte de los comprados ahora muchos años por D. Adolfo E. Carranza al Gobierno de Santiago del Estero y cuya mensura y plano fueron levantados en los años 1859 y 1860 por el ex-Ingeniero Nacional D. Juan Hildebrano.
En el año de 1873, a solicitud de sus propietarios entonces el Dr. D. B. de Irigoyen, D. Alejo Arocena, D. Anacarsis Lanus, D. Ambrosio Lezica y Don Adolfo E. Carranza, fueron prolijamente mensurados y amojonados en suertes de cuatro y seis leguas por el Agrimensor Publico D. Valentin Virasoro, mensura y division que fue ordenada y aprobada por el Gobierno de Santiago del Estero.
El espediente original se encuentra archivado en el Ministerio de Gobierno de la Provincia de Santiago, pero un testimonio publico de este espediente con todas sus ocupaciones, esta depositado en esta ciudad en la Oficina de Registro del Escribano D. Ramon F. Lagos, (Pasage Rovcrano, escritorio num. 34 altos) donde los interesados pueden inspeccionarlo.
Las ciento sesenta y siete y media leguas que se ofrecen en venta, estan divididas en treinta y una suertes de cuatro leguas, cinco de seis leguas, dos de cuatro leguas y una fraccion, una de tres leguas y media y otra de una legua y media.
Todas estas suertes estan perfectamente amojonadas, teniendo cada mojon gravados los numeros de las suertes a que corresponde. El agrimensor señor Virasoro ha adjuntado en su diligencia de mensur los datos principales de la naturaleza de cada una de estas suertes y a pedido de uno de los interesados dio un informe especial sobre las tierras que van venderse que en su mensura estan señaladas y divididas en tres lotes con los numeros 1, 2 y 4 de la seccion del Este.
No publicamos aqui esos informes por su estension, pero los interesados los encontraran en el folleto que hemos publicado y puede obtenerse en nuestra casa Alsina 78.
Esos informes son muy minuciosos y dan una idea exacta de la calidad de estos campos y ellos fueron pasados a los Sres Bates, Stokes y Ca. por cuenta de quienes el agrimehsor Sr Virasoro practico la mensura.
Desde la cindad de Santa Fe a estos campos hay solo treinta y dos leguas. Desde el lote 100 al pueblo de Reconquista, centro de colonias y establecimientos importantes hay veinte y tres leguas.
Ademas del informe del agrimensor Sr Virasoro y del que hemos transcrito los parrafos que se refieren a la estension de tierras que ofrecemos en venta, pueden los interesados consultar el espediente de mensura que se encuentra en poder del escribano Sr Lagos, donde encontraran datos sobre cada una de las suertes.
La riqneza de estas tierras por su feracidad sus ricas aguadas y sus montes esta fuera de toda ponderacion.
Podemos asegurar que antes de dos o tres años estara colonizada la mayor parte de esta zona, pues las colonias de Santa Fe, como puede verse en el mapa adjuto, avanza mas rapidamente hacia ese lado, que es donde estan las tierras mas ricas para la agricultura.
Contribuira poderosamente para el desarrollo de esas colonias la proximidad del puerto de Reconquista, sobre el Rio Parana, como tambien el Ferro Carril que se propone construir la empresa de los Sres. Murrieta y Ca.
Es publico y notorio que estos señores acaban de enviar a Santa Fe al Señor Don F. E. Harman, distinguido agronomo ingles, con el objeto de estudiar esas tierras que van incontinenti a ser colonizadas en gran escala.
Estan depositados en el Banco de Londres y Rio de la Plata los fondos necesarios, no solo para los gastos preliminares, sino aquellos que se requieren para la instalacion de varios grandes establecimientos de campo.
En vista de estos antecedentes, es indudable, que antes de muy poco tiempo, esas tierras valdran de 20 a 30 mil pesos fuertes la legua, precio que hoy se obtiene facilmente en las ventas de las tierras proximas a estas para colonias.
Por planos y folletos ocurrir a nuestra casa Alsina 78.

La area de campo arriba indicada, compuesta de 804 hectareas 84 areas y 72 cents; lindando con los Sra P Pico, Urien Eduardo y Luis Costa. El Ferro Carril a Campana cruza el campo, cuya estacion dista unicamente 20 cuadras. En el campo existen 3 chacras con sementeras de trigo y maiz que estaran recojidas cuando se entregue la propiedad, que no reconoce ningun contrato de arrendamiento.
Creemos de todo punto inutil demostrar la importancia de la localidad, que tiene a pocas cuadras uno de los mas grandes rios del mundo y un esplendido y seguro puerto donde cargan y descargan sus mercaderias vapores de ultramar.
Es sabido que la via fluvial es la mas barata de todas, de manera que es una gran ventaja para cualquier industria que se establezca alli.
La base que se ha fijado para la venta de este campo es infima; 500 $ hectarea, y en prueba de ello no tenemos mas que recordar que el campo que ocupa la Compania Inglesa para la conservacion de nuestras carnes, fue vendido por los Sers. Eduardo y Luis Costa a razon de 3000$ mas o menos la hectarea: mas de seis mil pesos la cuadra cuadrada. Reconoce esta propiedad una hipoteca de 10,000$ de la Seria E, con la cual puede continuar el comprador a estilo de plaza.

La area de terreno que ocupa con frentes a las calles mencionadas, se compone de 4,751 varas cuadradas y lo edificado esta distribuido en la forma siguiente: a Rivadavia, 8 almacenes incluso la esquina, con altos, a Azcuenaga 10 almacenes, tambien con altos, y en el pasage a la calle Piedad 14 almacenes.
En torno de la gran plaza el trafico de las carretas, toda adoquinada, tiene 4 pabellones con 48 puestos para la venta de carne, y sobre los costados, con calles por medio, tambien adoquinadas, hay cinco pabellones con 39 puestos para verduras, aves, pescado y otros articulos. El gran pabellon techado, formando plazuela en el centro, que se denomina "El Piso," tiene 14 puestos para la venta de fruta y contiguo a el esta el departamento de la administracion con todos los muebles necesarios y gran repuesto de los diversos boletos que se emplean en los cobros diarios.
El edificio tiene seis entradas con grandes portones de fierro, tres a Rivadavia, dos a Azcuenaga, y uno a Piedad. Todo esta edificado en cal, con tirantes y columnas de madera urunday y los techos de teja francesa. Los pisos de carnicerias y puestos de verduras son de cimento hidrofugo Poggi y el del gran pasage, de concreto sistema Aldao. El establecimiento contiene un total de 138 locales para almacenes, puestos &c, y a mas un corral, caballeriza con pesebres, letrinas y grandes sumideros, aguas corrientes y gas en todo el establecimiento, interior y exteriormente, con llaves de incendio distribuidas convenientemente.
En poder de los Rematadores estan las escrituras de propiedad, la Concesion Municipal del radio de seis cuadras a todo rumbo, acordada por diez años, de los que hay aun ocho a correr, y el ultimo balance anual de 1883, tomado de los libros de la Campaña, sobre los cuales se puede verificar su exactitud si se quiere. El impuesto que se abona a la Municipalidad en compensacion del radio es de $ 120,000 m/c al año, pagaderos por trimestres vencidos.
El conjunto de este establecimiento, en sus tres frentes, es de una arquitectura a propósito, y presenta un golpe de vista que embellece aquella localidad. Las veredas que circundan el edificio son de piedra de Escocia.
Creemos escusado entrar a encomiar la importancia del negocio que se desarrolla en aquel mercado y que aumenta diariamente, a punto de ser muy pocos los locales que se encuentran desocupados.
Prevenimos a los licitaderes que exigiremos la entrega del 5 o/o en garantia, sobre el valor de la venta, antes de firmar el boleto.
Para imponerse de los documentos mencionados y obtener cualquire otro dato que se deseo, ocurrase a nuestro escritorio, San Martin 90.
